

My Favorite Game — Presentation Signup

CS 3540 · Game Programming · Fall 2026 · Professor Hunter · Tue/Thu 17:30, SB 218

Fifteen minutes, opening class on your date. Commit slides or notes to `presentations/favorite-game.md` before you present. Three parts: **why it works** (design vocabulary) · **the technical how** (one system, concretely) · **what you are stealing** (one idea for your own game).

Plot summary and nostalgia score zero. Play the original, not the remaster — the original constraints are the subject. Can't make your date? Arrange a swap and tell me.
